

REMARKS

Reconsideration and allowance of this application, as amended, are respectfully requested.

Claim 37 was mistakenly typed in the Amendment of February 28, 2005 in a manner that placed the element "information storage" at the end of its previous recitation, rather than on a separate line. This supplemental amendment corrects the typing of claim 37. On line 7 of the claim a semicolon has been inserted after "authentication data". The words "information storage" which previously directly followed "authentication data" have been moved to line 8 of the claim. The undersigned regrets the typographical error.

Respectfully submitted,

SMITH, GAMBRELL & RUSSELL, LLP
